4	9:15am	Ann Newman Presentation and Discussion: We are looking to gain support from the ORCGA in developing a best practice and potential championing the need for legislation requiring Teranet (owner of Ontario Land Registry Data) to display transmission utility easements within their “Geowarehouse” viewer tool which is used by Municipal Planners, Surveyors, Real Estate Brokers and Agents and other groups searching land related information. This is a concern specific to the transmission pipeline industry and other utilities with linear easements across Ontario.
