Membership Brochure

AN INVITATION TO JOIN THE ORCGA:

Every time ground is broken, a company risks striking an underground utility.

Membership in the ORCGA will give your company the knowledge, tools and resources to minimize risks, improve safety performance and increase profit margins.

ORCGA membership offers:

- A tangible way in which to demonstrate safety due diligence.
- The **Best Practices Manual** which describes the types of activities that prevent damage to underground infrastructure by covering all standard safe practices. The manual has been developed by industry practitioners with proven successful results.
- Access to the **“Ear to the Ground” magazine**; a publication that provides members with updates from regulators and government on new safety regulations, industry information and pertinent damage prevention data, twice annually.
- Access to the **Damage Information Reporting Tool (DIRT) Report**. This report paints an accurate picture of safety and damage prevention in Ontario, as it details the root causes of utility strikes and what sectors are causing damages, including the green industry.
- Access to the ORCGA’s **13 Geographic Councils across Ontario**. These councils meet twice yearly, in a location near you, to discuss safe work practices, damage prevention training, and to share information on local and developing issues. All are welcome to participate, free of charge, and includes free breakfast.
- An invitation to the **Damage Prevention Symposium** as an exhibitor or an attendee.
- Networking opportunities** with other stakeholders, as a committee volunteer, on the Best Practices Committee, the Reporting and Evaluation Committee, or the Events and Education Committee.
- Promotion of your organization** as a damage prevention partner, through multiple ORCGA channels.
- Exclusive pricing opportunities**, from a variety of businesses, available only to ORCGA members.
- Low cost membership fees.**

WORKING TOGETHER TO BUILD A SAFER ONTARIO

The Ontario Regional Common Ground Alliance (ORCGA) is a member driven organization dedicated to ensuring public safety and the integrity of underground infrastructure by promoting effective damage prevention practices.
