

**2022 ORCGA VIRTUAL DAMAGE PREVENTION SYMPOSIUM
FEBRUARY 8 – 10 & FEBRUARY 15 – 16, 2022**

REGISTRATION IS NOW OPEN!

visit www.orcga/events.com to register

IN-PERSON HAS BEEN CANCELLED. Due to current government restrictions surrounding Covid, we have had to cancel the in-person portion of our event and pivot to a full virtual event.

The virtual event will be hosted on Cvent Attendee Hub. You must use Google/Chrome in order to access the event website.

We will be utilizing the same format as the 2021 Virtual Damage Prevention Symposium, 2 half days over 2 weeks with an additional day for our open committee meetings and AGM.. We are working on finalizing the schedule and will have an agenda released soon. The event will include live and recorded sessions, networking events, a virtual tradeshow with enhanced features such as attendee chat and an appointment module and our Excavator of the Year, Jim Douglas Award of Excellence and Member of the Year Awards Ceremony.

Can't attend a particular day or missed a session? All sessions will be recorded and available for viewing for 30 days after the event is completed.

Fees:

- Virtual: \$149.99

Here are just some of the topics that will be presented:

- Leveraging New Technology in Damage Prevention
- The use of MCGPR in SUE Investigation – A Tool in the Toolbox, but not the Stand-alone Solution to your Underground Challenges
- Planning, late locates and Damage Prevention: A holistic Approach to Locate Management in Ontario
- Using SUE for the Design of Stormwater System Upgrades – Reducing Risk and Cost to the Project
- SUE and Accurate as-builts: A Foundation for the Future of Damage Prevention
- Automating Utility Locates through Utility Mapping & Sketch
- Case Study – Asset Management: What to do you do if you do not have records and need to build an asset management program and DP program very quickly
