

## **2022 ORCGA VIRTUAL DAMAGE PREVENTION SYMPOSIUM**

### **FEBRUARY 8 – 10 & FEBRUARY 15 – 16, 2022**

Each year, the Ontario Common Ground Alliance (ORCGA) hosts a symposium as a forum to exchange Damage Prevention industry information and to provide an opportunity for networking. This event is a signature event for the ORCGA attracting over 250+ damage prevention management professionals and decision makers from across Canada including stakeholder groups such as oil and gas, municipalities, telecommunications, emergency management, electrical transmission, surveyors and provincial regulators.

Due to government restrictions surrounding Covid, we were forced to pivot from our traditional in-person event to a full virtual one.

The virtual event was hosted on Cvent Attendee Hub and was attended by nearly 200 damage prevention professionals from across Ontario.

Our program included 12 breakout sessions, 2 networking events, 3 plenaries and a virtual Tradeshow with 15 exhibitors.

#### **Final Program:**

- SUE and Accurate as-builts: A Foundation for the Future of Damage Prevention
- The use of MCGPR in SUE Investigation – A Tool in the Toolbox, but not the Stand-alone Solution to your Underground Challenges
- Using SUE for the Design of Stormwater System Upgrades – Reducing Risk and Cost to the Project
- Making Different Systems Communicate (Reducing Data Entry)
- Leveraging New Technology in Damage Prevention –
- Enbridge Crossbore Safety Program
- Update on the IO Metrolinx ROI Study for Sue Applications and during Major Projects
- Automating Utility Locates through Utility Mapping & Sketch
- Planning, late locates and Damage Prevention: A holistic Approach to Locate Management in Ontario
- Case Study – Asset Management: What to do you do if you do not have records and need to build an asset management program and DP program very quickly –
- WSIB – Health and Safety Excellence Program – Was always going to be virtual
- How Technology Can Address Current Trends and Future Needs of Damage Prevention
